WRTC-2006: Canadian Team Takes the Gold! US Teams Place Second and Third

NEWINGTON, CT, Jul 11, 2006--The Canadian team of John Sluymer, VE3EJ, and Jim Roberts, VE7ZO (ex-VE3IY), has officially topped the 46-team World Radiosport Team Championship 2006 (WRTC-2006)

field with nearly 2.44 million points (see "WRTC-2006 Final Scores"). Operating as PT5M during the event, they will take home gold medals for the 2006 competition. US teams took the second and third positions for silver and gold medals respectively.

Sluymer and Roberts have teamed up in previous WRTCs. In WRTC-2002 in Finland, VE3EJ and VE7ZO placed sixth. At WRTC-2000 in Slovenia, they came in 11th with Roberts as the team captain and Sluymer as the second op.

Holding the second position for the silver medal was the US-West team of Californians Dan Craig, N6MJ, and Dave Mueller, N2NL, with nearly 2.32 million points. They operated as PW5C. The top two teams held their respective positions during the final four hours of the event, but in the hours before that, they swapped the lead a couple of times.

The national special invited team of Doug Grant, K1DG, of New Hampshire, and Andy Blank, N2NT, of New Jersey, placed third when all was said and done. They were in fourth place in the preliminary Scoreboard results as the event ended at July 9 at 1200 UTC. The final five changed, however, once WRTC-2006 officials reviewed all logs. Operating as PT5Y, Grant and

Taking home the gold: (L-R) Jim Roberts, VE7ZO (ex-VE3IY), John Sluymer, VE3EJ, and referee Junichi Tanaka JH4RHF at the site and referee selection on Friday, July 7. [Diane Ortiz, K2DO, Photo]

Blank racked up almost 2.1 million points to earn the bronze medal.

Preliminary Scoreboard numbers had the Serbia-Montenegro team of Ranko Boca, YT6A, and Djurica Maletin, YT6T -- operating as PT5L -- apparently scrambling from 11th to third place in the final hour of the event. That was not to be, however. They ended in 11th place.

In a news release July 10, Jarmo Jaakola, OH2BN, said, "Obviously such a jump is not possible near

the finish line, when score levels are quite stable, and the path is established toward final positions."

Jaakola says YT6A set up his team's logging software as if the pair were in Montenegro -- calculating the team's points as though operating from Europe, not Brazil. The software configuration and the team's score were corrected after the event ended, and the team's claimed third-place finish was submitted to the log-checking committee, which apparently determined their 11th place finish.

Taking the fourth spot was the Ukrainian team of Yuri Onipko, UT4UZ, and Dimitry Stashuk, UT5UGR, who competed as PW5X. They'd showed up in fifth place in the preliminary standings. The national team from Ukraine logged some 2.02 million point. 9A8A and 9A5K had been holding onto fourth place in the preliminary scoring until the last hour, when they dropped to sixth. After log checking, the PT5N team dropped to seventh.

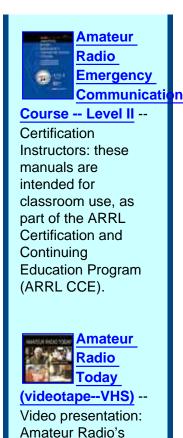

Rounding out the top five was the PT5D team of Stefano Brioschi, IK2QEI, and Stefano Galli, IK2JUB, from Italy. They racked up nearly 1.99 million points.

The year's premier global contesting event, WRTC-2006 was held in conjunction with the <u>IARU HF World Championship</u>. The WRTC-2006 organizing committee collected logs via e-mail from IARU contest participants to assist with log checking and determining the final scores and standings.

The difference between the first and last-place teams was more than 1.9 million points. WRTC-2006 selected 47 teams to take part, but only 46 competed because the Czech Republic team of OK1FUA and OK2RZ was unable to get to Brazil because of an airline service suspension.

Citing other commitments, three-time WRTC winners Dan Street, K1TO, and Jeff Steinman, N5TJ, did not participate in this year's event in Brazil.
